

Dear Republican Executive Committee members,

After long and thoughtful consideration, I have decided to run for another term as chairman of the Republican Party of Palm Beach County. I am committed to the REC's continued growth and success and am proud to serve alongside you. I value integrity and honesty as paramount leadership traits and humbly ask for your support and your vote as we go forward together to win the Presidency in 2024.

Over the past eight years, our Republican Party of Palm Beach County has secured incredible gains in voter registration and voter turnout due to the hard work of our committee members and grassroots volunteers. Thank you all for making Tuesday night's massive victory possible. We accomplished something incredible by keeping focused on the mission of getting Republicans elected, getting out every Republican vote, and not allowing anything to distract us. We did it as a team. Congratulations to you and to all of us!

Because of Governor DeSantis's bold and heroic governance in the face of national lockdowns and Biden's economic turmoil, Florida and Palm Beach County responded with the largest margins we have ever seen, **giving Governor DeSantis, Ashley Moody, Jimmy Patronis, and Wilton Simpson each over 50% of the Palm Beach County vote!** Our Republican Executive Committee rode the Red Wave to victory, having established the predicate for success over the past several cycles.

The Republican Party of Palm Beach County was motivated, trained, and well-funded. Our Election Operations team pushed out and protected the vote. We had victory offices across the county supporting candidates and the campaign effort. We recruited, counseled, and financially contributed to candidates in amounts far greater than previously seen. We engaged with Hispanics and black voters like never before. Our Regional Directors mobilized their members and met the voters each week, resulting in local victories across the county...we not only protected every incumbent and flipped the county for Gov. DeSantis, but **we also gained two seats on the County Commission and a new Republican member of the State House!**

For these reasons and more, we must retain our current leadership. We have proven we can win local races. A majority Republican County Commission and a majority Republican State House delegation can and will happen within the next election cycle. Starting over from scratch with different leadership would catastrophically erase all of our hard-won gains.

For now, take a bow and enjoy the victory we rightfully earned. We turned Palm Beach County RED! We will do the same for President Trump in 2024. For continued solid, steady, and proven leadership, please re-elect me and all of our current officers. Thank you!

Your chairman,

Michael A. Barnett

P.S.: Endorsement notice coming soon!
